

Multifunctional Wireless Smart Podium

DWS-1000

DWS-1000

Multifunctional Wireless SMART Podium

DWS-1000 is a portable Multifunctional Wireless Smart Podium is specially designed for classrooms, conferences, commercial exhibitions, religious activities, stages and podiums. This system incorporates a variety of professional - Ai features, intelligently combining speaker and traditional podium, no need for external speaker, amplifier, mixer or power connection, making handling every speech or presentation a breeze.

(Available in both White & Black Color)

Perfect Experience

Built-in 250W class-D power amplifier drives four 5" woofer and one 1" tweeter and easily satisfies the amplification requirement of mid-size events with a 75-100 people gathering, bringing an unprecedented quality sound experience.

Wireless Microphone

Up to two additional wireless microphones can be used along with the DWS-1000 for the host or interaction with the audience.

Wireless Audio Link

Able to connect active speakers to extend the coverage. Under the wireless audio interlinking mode, 1 to many, the coverage immediately doubles and all blind spots disappear, connect active speakers on wireless mode to extend the coverage easily satisfies the requirement of large-size events with a 250-300 persons crowd, bringing an unprecedented quality sound experience.

Furthermore, wireless audio interlinking mode is compatible with DWS-800 series modular UHF wireless receivers, can be interoperable with any standard DSP, Amplifier, loudspeaker system and for any venue.

Pleasing to the Eye

In contrast to standard cuboid design of the traditional podium, it incorporates elegantly shaped acoustic column elements. The aluminum alloy sound column goes with a fiber-reinforced plastic top and base to make the total weight the lightest ever.

Long Battery Duration

Up to 15 hours of operation per battery charge. Battery compartment design makes battery replacement much easier.

Move as you Wish

The base is integrated with heavy-duty wheels, easy to move around and ready to operate wherever you go. Ideal for indoor, outdoor, speech, presentations and teaching.

Flexible Customization

The multimedia functions are flexibly expandable based on the requirement of various applications, such as the receiver module of wireless microphone, MP3 recorder player and interlinking transmitter module. Under the wireless audio interlinking mode, 1 to many, the coverage immediately doubles and all blind spots disappear.
